

The Solange Salt Water Pool

By Cornelius

The Solange Salt Water Pool is a modern designed pool with sweeping Euro lines. The Solange features an all resin frame along with a multi coated steel wall which includes a wall saver Stainless Steel insert panel. Most pool failures begin where the skimmer and return are cut into the wall. Our super stainless steel panel extends the life of ordinary pools – don't buy a pool without it! Available in grey or taupe, the Solange can enhance any backyard décor. The Solange Oval features a unique buttress less system with a totally invisible side support system that provides strong, streamlined aesthetics!
